Connect The Dots

Parts Of My Car

Colourful Hot-Air Balloon Ride

Big Vehicle, Small Vehicle

To The Railway Station!

Shapes In Vehicles

Red, Green, Yellow!

Family Train Ride

Complete The Sequence

Load The Truck

Skills Acquired

Numeracy, Fine Motor, Logical Reasoning

Fine Motor, Creativity, Imagination

Creativity, Play, Fine Motor

Cognition, Logical Reasoning, Communication

Logic, Cognition, Numeracy

Logic, Cognition, Spatial Reasoning

Fine Motor, Exploration, Social Empathy

Vocabulary, Self-expression, Creativity

Play, Cognition, Logical Reasoning

Fine Motor, Cognition, Exploration

Connect The Dots

Connect the numbers to complete the image! How about using your favourite colouring tools?

How this activity helps

As your child connects the numbers, they develop their logical reasoning and fine motor skills.

Parts Of My Car

What are the parts of the car? There's the steering wheel, door, tyres, and more!
Help your child cut along the lines and place them together to complete the car. Introduce them to the parts of the car. Once done, let them colour the car.

How this activity helps

As your child cuts along the parts of the vehicle, their fine motor skills develop. Placing the parts together to create the car helps develop their creativity.

Colourful Hot-air Balloon Ride

The hot-air balloon is missing its colours! Let's take a ride on the colourful balloon. Time to bring out your favourite colours tools — paint, crayons, pencils, etc. — and add some colour to the hot-air balloon. Use the colour code to colour the hot-air balloon.

How this activity helps
As your child associates and colours the hot-air balloon, they develop their creativity.

Big Vehicle, Small Vehicle

There are so many vehicles on the road!
Big ones, small ones, red ones, green ones, and more.
Help your child cut out the vehicles and place them in
order of smallest to largest vehicle.

How this activity helps

As your child sorts the vehicles by size they enhance their cognition and exercise their logic and reason.

To The Railway Station

The train is on its way to the railway station!
Help the train reach the railway station
by counting and drawing a line from
1 to 10 . Follow the sequence of the numbers.

		8	4	6	5
		1	2	3	7
3	8	5	8	4	9
1	2	7	6	5	1
4	6	8	9		
5	2	3	10		

How this activity helps

As your child cuts the paper at varying speed, they fine motor movements develop. As they listen to your cues, their concentration improves as well!

Shapes In Vehicles

Can you spot all the vehicles below? There's a Train and a Bus! Can you spot all the shapes in the vehicles?

Help your child find all the shapes hidden in the vehicles and count them.

=

=

=

How this activity helps

As your child finds all the shapes hidden in the vehicles, they develop their concentration and spatial reasoning.

Red, Green, Yellow!

Red light says stop; green light says go; yellow light says slow down!

As your child cuts along the dotted lines call out the colours of the traffic light in different orders. When you call out "Red," they will need to stop cutting. When you call out "Green," they need to continue cutting. When you call out "Yellow," they must slow down.

How this activity helps

As your child cuts paper at various speed, their fine motor skills develop. As they listen to your cues, their concentration improves as well!

Family Train Ride

The whole family is invited for this train ride!
Maybe on their way to fun vacation
Take out your favourite colouring tools (crayons,
colour pencils, paint, etc) and get set to draw your
entire family on the train bogies. How about a story
of a family train ride - where is the off to?

How this activity helps

As your child draws the entire family on the train, they develop their fine motor skills.
Narrating a story of the drawing helps develop your little one's vocabulary and communication .

Complete The Sequence

The helmets on each row seem to be placed in a sequence!
Can you identify what comes next?
Help your child identify the correct helmet in the sequence based on the first three helmets given.

1       

2       

3       

4       

5       

How this activity helps

Completing each sequence helps exercise your child's cognitive development as they use their logic and reason.

Load The Trucks

The truck seem to be missing their goods! We need to load them. Time to bring out some some child- friendly paint to finger-print. Help your child observe the loaded trucks, add them and load each truck by finger-printing the total number.

+

=

How this activity helps

As your child completes the sum their cognition is enhanced. Finger-printing helps develop your little one's fine motor skills.
