Where Do I Belong?

Logical Reasoning, Knowledge, Fine Motor

Colour By Number

Look at the fish. Aren't its colours missing? But what could the numbers mean?

Help your child colour the fish by number. Each number has an assigned colour. Once done, give the fish a name.

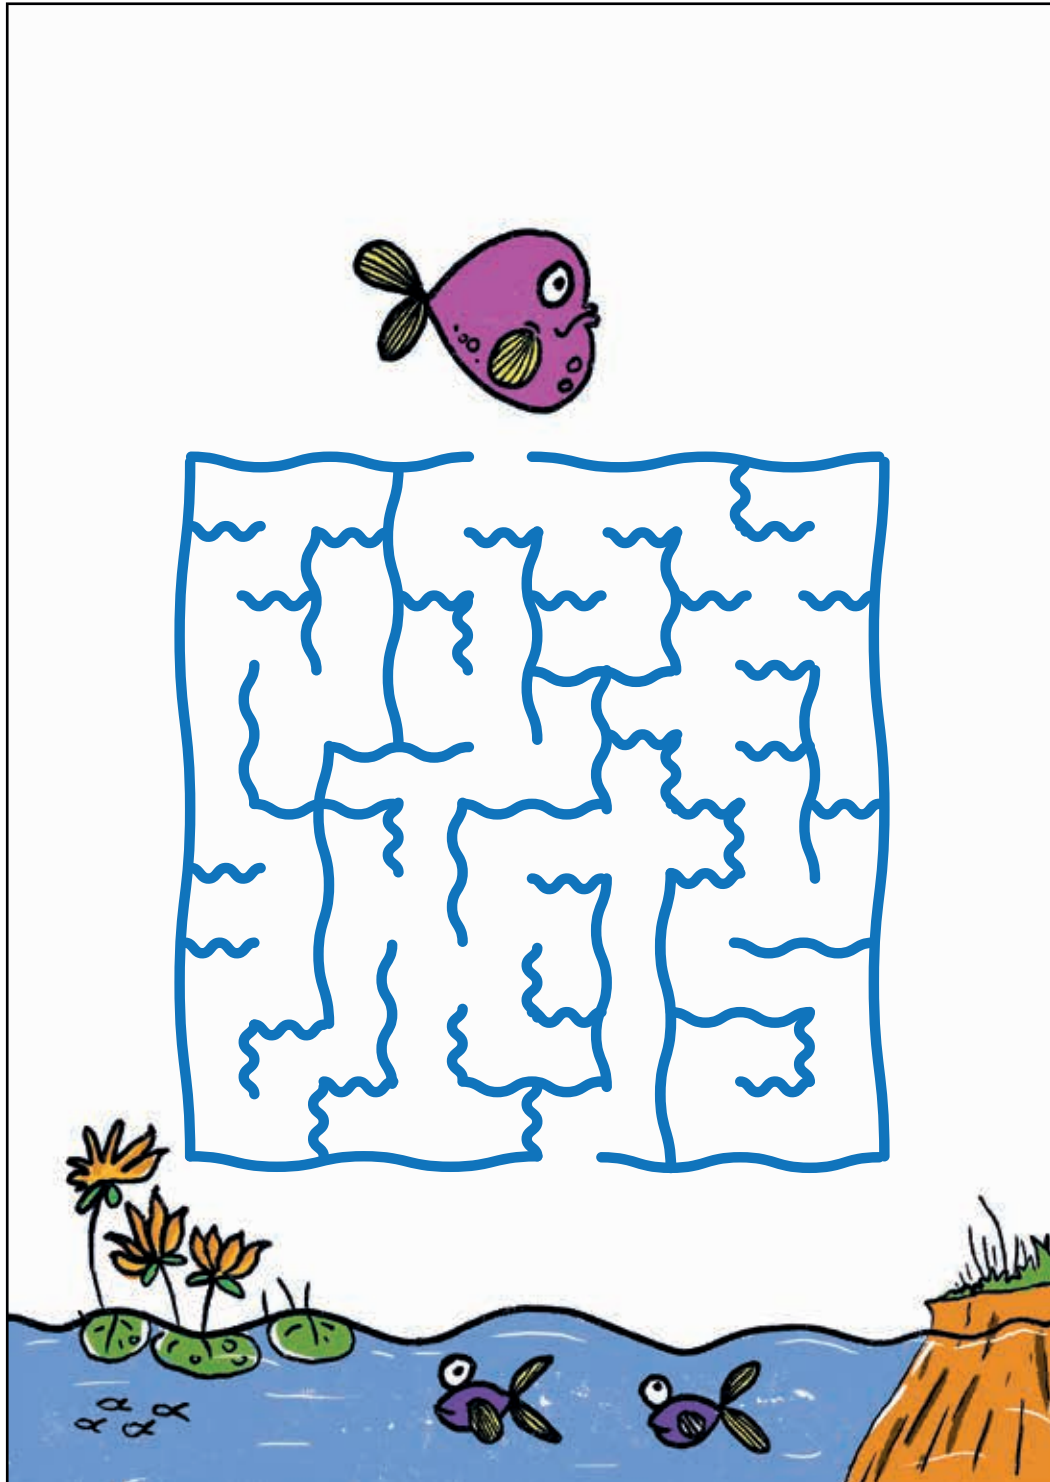

How this activity helps?

Your child colours the fish by associating the numbers and colours. Ask your child to colour the background. Then, describe the underwater scene in entirety.

Take Me Home

Fish is lost. Do you know where it lives?

Help your child guide the lost fish through the maze to its home.

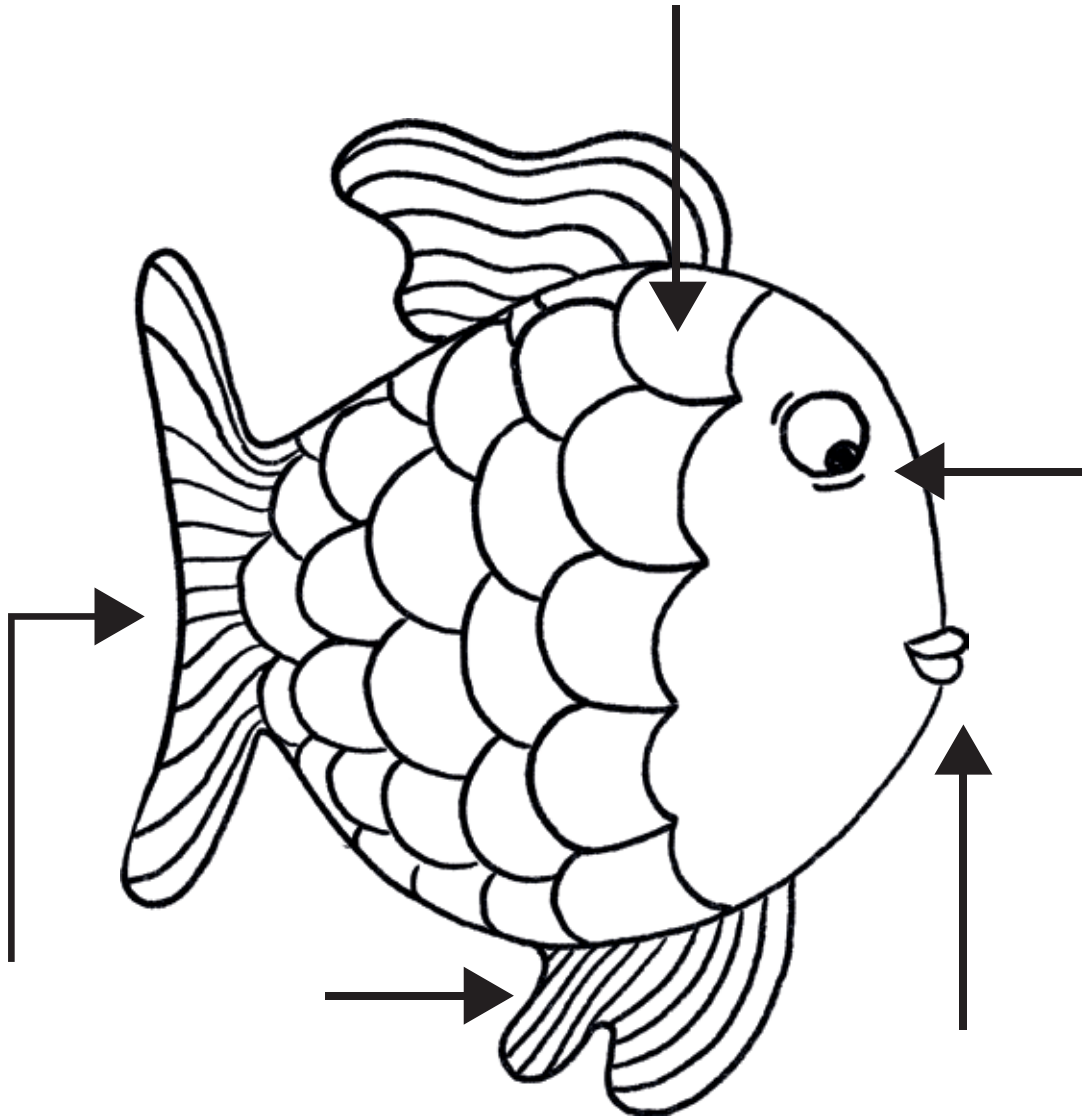

How this activity helps?

Your child guides the fish home by the use of logic. It involves observation too. Encourage your child to tell a story about why the fish got lost in the first place. Was it on an adventure?

Parts Of Fish

What are the different parts of a fish? Can you spot them all?

Help your child colour the fish in any manner. Then, identify its parts by cutting the name of each part, from the list given below, and pasting it in the right spot.

Tail

Fin

Eye

Mouth

Scale

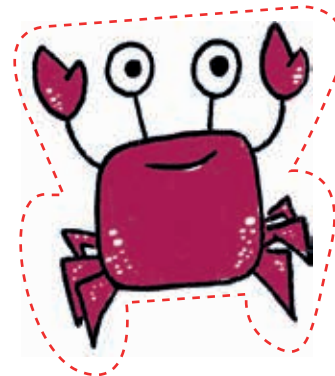

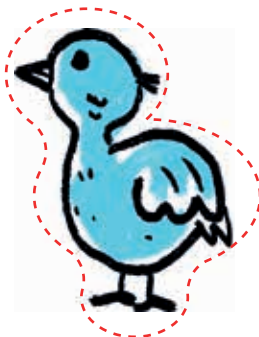

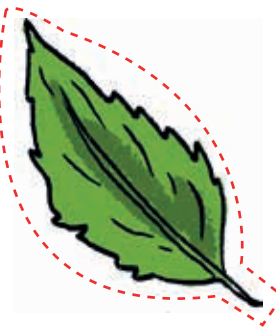

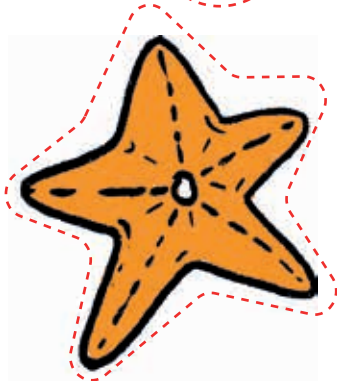

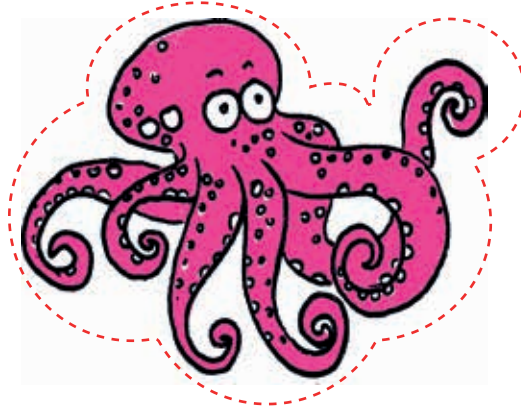

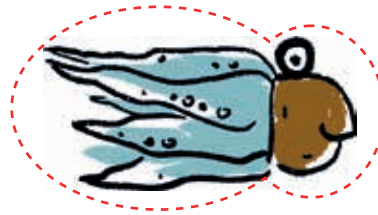

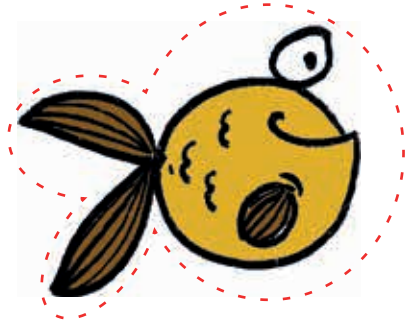

How this activity helps?

Your child identifies the different parts of a fish — eye, mouth, fin, scale, and tail. Isn't the underwater world diverse? With your child discuss about this diversity. How the underwater creatures breathe. It's different from us, isn't it?

Where Do I Belong?

Not all those given below live in water. But some of them do.

Help your child cut out and sort the creatures according to where they belong. Then, stick them in their right box.

How this activity helps?

Your child learns to differentiate between creatures of water and those that don't belong under water. Encourage your child to identify each creature by name and describe them all.

Belongs To Underwater

Does Not Belong To Underwater

What Parents Say About Flintobox

Asha

From constant TV & iPads to decreased screen time & learning through play, Mrs. Asha revamped the way her kids were being engaged at home!

[Find out how >>](#)

Abhijit

From not knowing how to engage his daughter to engaging her with a wide range of activities, Mr. Abhijit overcame his biggest parenting challenge!
